WORK EXPERIENCE

ClickerTeam – Podgorica, Montenegro

Web developer

[01/09/2024 – 31/08/2026]

Developed frontend functionality for Enexa, a virtual power plant platform, including the Trading Desk and features involving energy-trading concepts such as imbalance calculations, positions, commitments, orders, volumes and prices.

Collaborated with Product Owner, Project Manager and backend developers to clarify functionality before implementation. Refined Jira descriptions and subtasks, proposed acceptance criteria and used Swagger/OpenAPI to understand available data and API behavior.

Worked on permissions and category-driven EDS forms, investigated edge cases and supported testing, UAT and post-release issue investigation with PM, QA and DevOps.

Uhura Solutions – Podgorica, Montenegro

Web developer

[01/02/2023 – 30/09/2024]

Developed frontend functionality for an AI-powered document-processing platform used in banking and financial services.

Worked with workflow rules, conditions and validation logic and translated them into application behaviour.

Contributed to the development of a configurable workflow builder and investigated document-processing cases involving extracted-entity mapping and duplicate occurrences.

Trid Tech – Podgorica, Montenegro

Web developer

[01/02/2022 – 31/01/2023]

Contributed to the redesign and migration of Customer Management functionality to React.

Worked with an existing application where documentation was limited, using the existing codebase and testing different scenarios to understand current system behaviour before rebuilding the functionality in the redesigned application.

QQRIQ – Podgorica, Montenegro

Software developer

[01/01/2021 – 30/09/2021]

Worked on the development and extension of an existing Laravel-based car-rental system. Investigated existing code and functional issues, proposed solutions and implemented functionality after alignment.

Worked on booking flows, authentication, vehicle functionality, emails and payment integration, including testing and handling edge cases. Took increasing ownership of backend development and technical investigation, including troubleshooting an ImageMagick processing issue for UrbanOne.

EDUCATION AND TRAINING

Specialist (Spec. Sci) in Information Technology

Mediterranean University [01/09/2020 – 11/02/2022]

City: Podgorica | Country: Montenegro | Level in EQF: EQF level 7

Advanced software development and software engineering; database design and management; web technologies; information systems analysis and design; computer networks; information security; project management; advanced information and communication technologies (ICT); development and implementation of IT solutions.

Bachelor of Science (BSc) in Information Technology

Mediterranean University [01/09/2017 – 08/11/2021]

City: Podgorica | Country: Montenegro | Level in EQF: EQF level 6

Programming and object-oriented programming; web development; databases and SQL; data structures and algorithms; computer architecture and operating systems; computer networks and information and communication technologies (ICT); information systems; information security; software engineering and development.

SKILLS

Software & Web Development

React / Angular / Next.js / JavaScript / TypeScript / Node.js / PHP / Laravel / web programming / JavaScript / use software design patterns / use software libraries / object-oriented modelling

APIs & Data

develop software prototype / REST APIs / Swagger / OpenAPI / MySQL / PostgreSQL / Supabase / API integration

Development Tools

Jira / Git

Practical / Functional Skills

analyse software specifications / use word processing software / debug software

DIGITAL SKILLS TEST RESULTS

	Information and data literacy	ADVANCED	Level 6 / 6
	Communication and collaboration	ADVANCED	Level 6 / 6
	Digital content creation	ADVANCED	Level 6 / 6
	Safety	ADVANCED	Level 6 / 6
	Problem solving	ADVANCED	Level 6 / 6

Results from a [self-assessment](#) based on [The Digital Competence Framework 2.1](#)

LANGUAGE SKILLS

Mother tongue(s): Montenegrin

Other language(s):

English

LISTENING B2 READING B2 WRITING B2

SPOKEN PRODUCTION B2 SPOKEN INTERACTION B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

CONFERENCES AND SEMINARS

[25/06/2024 – 27/06/2024] Rome, Italy

NgRome Attended ngRome 2024, a conference focused on Angular and modern web development, including technical talks, industry practices and developments in the Angular ecosystem.

PROJECTS

[01/08/2026 – Current]

Designing Checkout for Uncertainty, Failure and Safe Recovery (Moja Srma – Independent Product) Designed checkout behaviour for scenarios involving unknown shipping costs, duplicate submissions, server failures, stale cart state and unsupported delivery. Defined explicit system states and recovery behaviour to ensure that uncertain conditions are handled without creating incorrect orders or assumptions.

Link: https://drive.google.com/file/d/18O1v-7SOezw3zwCJG1Db7X0gsSljczRO/view?usp=drive_link

Designing Role-Based Behavior for a Multi-User Platform (Academic Project) Designed role-based application behaviour for visitors, registered users and administrators. Defined permission-based UI behaviour, separated administrative actions from regular user flows and considered access-control edge cases across the application.

Link: https://drive.google.com/file/d/1KuAbAHvnyjsH1hraVg9II6yL-yOAI-75/view?usp=drive_link

Turning Watchlist Behavior into an Explainable Discovery Signal (Academic Project) Explored how existing watchlist and genre data could support movie discovery without introducing unnecessary user input or overstating the solution as machine learning. Designed simple, explainable logic based on existing user behaviour and considered cases such as empty watchlists and multiple genre interests.

HOBBIES AND INTERESTS

Creative Pursuits & Reflection I enjoy working with clay, making postcards and creating small things with meaning. I am naturally reflective and curious, and I like spending time exploring ideas, noticing details and turning thoughts into something tangible.
